HOW TO:
SHADOW PUPPETS!

STEP 1: GATHER MATERIALS
* Black Paper
* Pencil or Pen
* Dowels
* Scissors and Cardboard Box
* Tape
* Flashlight
* Large white paper

STEP 2: PLAN YOUR PUPPET
On the black sheet of construction paper, draw the shape you would like your puppet to be. Cut out!

STEP 3: TAPE!
Using one piece of tape, tape your construction paper cutout onto the end of a straw.

STEP 4: SET UP YOUR SCREEN!
Take the cardboard box, cut one side all the way through so it stands up on its own. Then, cut a rectangle the size of the paper out. Tape the paper in the space. Decorate!

STEP 5: PLAY!
Ask your adult helper to hold the flashlight behind your screen. In between, hold up your puppet! Can you make your puppet BIG? What happens if you turn it sideways? Can you make it move across the bottom of the screen?

STEP 6: SHOW TIME!
If you make more puppets, what would they be? Would some be slow or very quick? Would they have different voices? Would they have quick steps like a bunny? Try lots of personalities!
